## Learning Objective

We will use pictures to add fractions.

## CFU

What are we going to learn?

## Activate Prior Knowledge

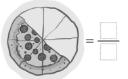

A fraction is a number that represents part of a whole.

- The numerator represents the number of selected equal parts.
- The denominator represents the number of total equal parts.

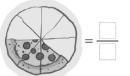

How much pizza is left?

Write the fraction of pizza remaining represented by the pictures.

1.

2.

## Make Connection

Students, you already know how to use pictures to represent fractions. Now, we will use pictures to add fractions.
