**Description:**[Comments:](#)

This Common Core reading literature lesson covers how to justify an inference by finding support in the text. The lesson includes research-based strategies and strategic questions that prepare students for Common Core assessments. In this lesson, students will learn how to identify the support for a given inference in terms of words and phrases or a quotation from the text. Emphasis is given to what is not an inference or not good support. In addition to the lesson, there are four pages of Independent Practice with questions modeled after the Common Core assessment items.

This lesson is compatible with all web browsers and operating systems on any PC, Mac, or Chromebook. Answers will pop onto the page with the click of a mouse or presentation remote.
