Summary and interpretation:

Scoring Interpretation

The scores you received on this questionnaire provide information about how you see yourself and how others see you as a leader. The chart allows you to see where your perceptions are the same as those of others and where they differ. There are no “perfect” scores for this questionnaire. The purpose of the instrument is to provide a way to assess your strengths and weaknesses and to evaluate areas where your perceptions are similar to or different from those of others. While it is confirming when others see you in the same way as you see yourself, it is also beneficial to know when they see you differently. This assessment can help you understand your assets as well as areas in which you may seek to improve.
