

CRIMINAL JUSTICE and **COLLEGE STUDENTS**

CRIME ON YOUR CAMPUS

Think about your college or a college near you. Next, think about how many crimes you believe were reported by campus police to the FBI's UCR program. In particular, how many larcenies, robberies, and assaults do you think were reported? Discuss your answers with a few classmates. Then, go to the UCR's website and find out for yourselves how much crime was reported. You can access the university reports

by going to the UCR website (<http://www.fbi.gov/about-us/cjis/ucr/>), clicking on the Crime in the United States link, clicking on the year you are interested in, and clicking on Table 9. In a small group, discuss whether your estimates were above or below what was reported to the FBI. What do you think accounts for the differences?
