

names will be deleted from the audiotape prior to transcription. All study materials are kept in locked file cabinets. Only three members of [the] research team will have access to study materials.

BENEFITS: You will have the opportunity to participate in an important research project, which may lead to the better understanding of what factors both help and prevent an individual's recovery from drug use and criminal activity.

COMPENSATION: You will receive \$100 to compensate you for your time and travel costs for this interview.

CONFIDENTIALITY: Your records will be kept confidential. They will be kept under lock and key and will not be shared with anyone without your written permission. Your name will not appear on any data file or research report.

A Privacy Certificate has been approved by the U.S. Department of Justice. The data will be protected from being revealed to non-research interests by court subpoena in any federal, state, or local civil, criminal, administrative, legislative or other proceedings.

You should understand that a Privacy Certificate does not prevent you or a member of your family from voluntarily releasing information about yourself or your involvement in this research. If you give anyone written consent to receive research information, then we may not use the Certificate to withhold that information.

The Privacy Certificate does not prevent research staff from voluntary disclosures to authorities if we learn that you intend to harm yourself or someone else. These incidents would be reported as required by state and federal law. However, we will not ask you questions about these areas.

Because this research is paid for by the National Institute of Justice, staff of this research office may review copies of your records, but they also are required to keep that information confidential.

RIGHT TO QUIT THE STUDY: Participation in this research project is voluntary and you have the right to leave the study at any time. The researchers and their assistants have the right to remove you from this study if needed.

You may ask and will receive answers to any questions concerning this study. If you have any questions about this study, you may contact Ronet Bachman or Daniel O'Connell at (302) 831-6107. If you have any questions about your rights as a research participant, you may contact the Chairperson of the University of Delaware's Human Subjects Review Board at (302) 831-2136.
