C: Oh, no, we run into the computer phobics all the time, and, and in reality, what I'll often do is to, to uh literally have them go away and start to analyze what they're doing by hand

B: Uh-hm.

C: and at our next office visit, particularly with my doctoral students, I'll take their data and sit down and do the same thing on the Macintosh in about five or six minutes,

B: (Laughs)

C: what they've taken about a week to try to do, and, and it's amazing how they become less computer-phobic!

B: Yes. (laughs)

C: I'm not sure they become less computer-phobic, to be very honest, uh as they begin to realize that it is so much to their advantage to use the computer for some things

B: Uh-hm.
