

FIGURE 10.10 Compute Function With Numeric Expression Indicated

The screenshot shows the 'Compute Variable' dialog box in IBM SPSS. The 'Target Variable' is 'PaduaScaleTotal'. The 'Numeric Expression' is 'padua1 + padua2 + padua3'. The 'Function group' is 'All'. The 'Functions and Special Variables' list is empty. The 'If...' button is visible. The background shows a data table with columns 1 through 12.
