

FIGURE P.3 Variable Type Dialog Box

Name	Type	Width	Decimals	Label	Values
stats	Numeric	8	2		None

Variable Type

☒ Numeric

☐ Comma

☐ Dot

☐ Scientific notation

☐ Date

☐ Dollar

☐ Custom currency

☐ String

☐ Restricted Numeric (integer with leading zeros)

Width:

Decimal Places:

 The Numeric type honors the digit grouping setting, while the Restricted Numeric never uses digit grouping.

The dialog box shown here appears by clicking the small gray box with three dots in the Type column. This allows you to define the type of variable being measured.
