

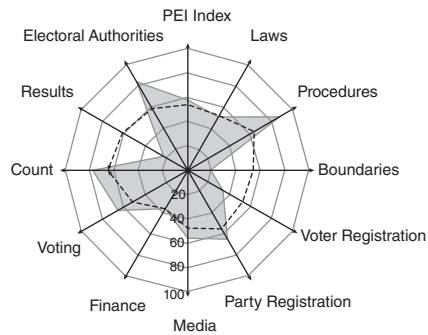

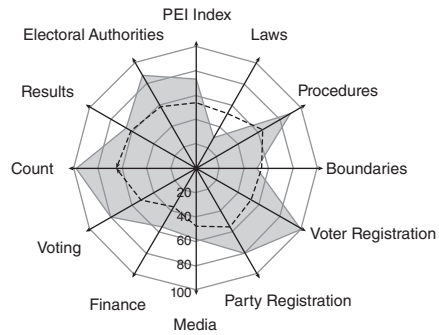

FIGURE 11.2 ■ Electoral Integrity in Four Countries in 2021

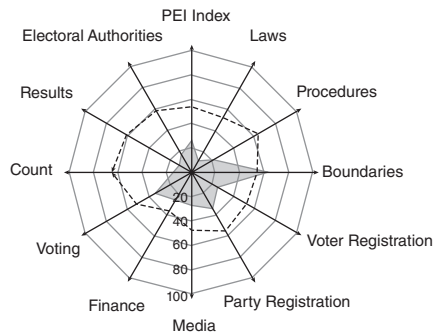

United States

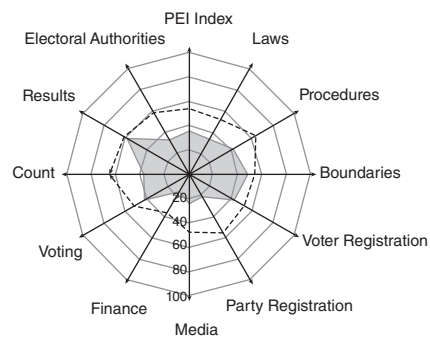

South Korea

Belarus

Egypt

Note: Data for the star-plots come from the Perceptions of Electoral Integrity expert survey (PEI 8.0; Garnett et al. 2022). The gray star-plots indicate how the four countries score on each of the ten categories of electoral integrity. They also show each country's overall PEI score. The black dashed line indicates the average global score across the same categories of electoral integrity.
