

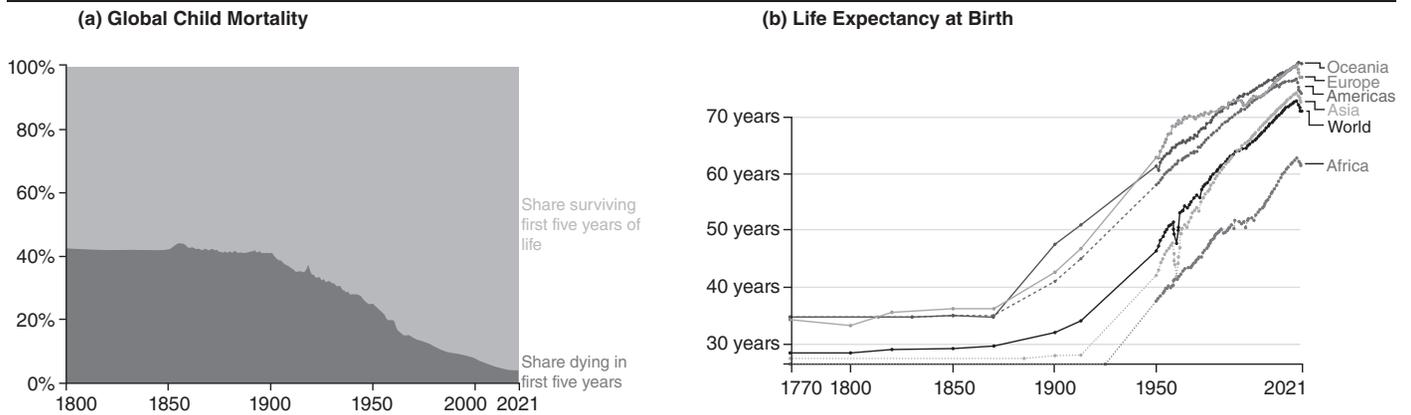

**FIGURE 6.4 ■ Child Mortality and Life Expectancy Over Time**

Note: The panels in the figure are from the Our World in Data project (Roser, Ritchie, and Dadonaite 2019; Roser, Ortiz-Ospina, and Ritchie 2019), <https://OurWorldInData.org/child-mortality> and <https://OurWorldInData.org/life-expectancy>. Global child mortality captures the share of newborns who die or survive the first five years of life. Data on child mortality come from the United Nations Inter-Agency Group for Child Mortality Estimation (UN-IGME 2023). Data on life expectancy come from UNWPP (2022), HMD (2023), Zijdeman and Ribeira da Silva (2015), and Riley (2005).
