

17 **Mixed Research**

The Research Continuum

Types of Mixed Research Designs

Eight Stages in the Mixed Research Process

1. Determine whether a mixed design is appropriate

2. Determine rationale for using mixed design

3. Select the mixed research design and the mixed sampling design

4. Collect the data

5. Analyze data

Five Common Purposes

Triangulation

Complementarity

Quantizing

Qualitizing

6. Continually validate the data

7. Continually interpret the data

8. Write the research report
